education

since 2013 Carnegie Mellon University, expected graduation May 2016

Pittsburgh, PA Bachelor of Science, Computer Science & Business Administration Minor

GPA: 3.83/4.00 **Dean's List**: Fall 2013, Fall 2014, Spring 2015

2009-2013 Phillips Exeter Academy, English Diploma, cum laude

languages

* C++ * C# * Java * Javascript Python SQL **SML**

technical experience

2015 **Microsoft Corporation,** Software Engineer Intern

Redmond. WA

Exeter. NH

- Designed and implemented an analytics tool which allows hierarchical search of XAML file structure using C# and SQL.
- Leveraged telemetry data to actively track the reliability of Windows Phone applications, leading to the discovery of a ship-blocking bug.

2014 Microsoft Corporation, Explorer Intern Redmond, WA

Pittsburgh, PA

- Developed a dashboard for telemetry data, enabling managers to make actionable, data-backed decisions about Microsoft Office Online features.
- Worked on a team of 3 interns to create a responsive ASP.NET web application capable of accessing large amounts of SQL data.

since 2013

CMU Biorobotics Lab, Researcher for Dr. Howie Choset

ingBot, a robot which can self-stabilize in freefall.

- Led a team of 3 students in planning and implementing firmware for Jump-
- Designed and programmed an Android application which allows realtime sensor data to be accessed in MATLAB and ROS.

applications

technologies

Android SDK

ASP.NET

OpenGL

Windows SDK Node.js

Git LaTeX Vim Microsoft Office Visual Studio Linux Windows

selected projects

2015 tunemachine.co, Andreessen Horowitz Battle of the Hacks 2.0 Menlo Park, CA

> - Implemented the backend for a Node.js web application which provides a version control system for Spotify playlists.

2015 course-api, Scottylabs Pittsburgh, PA

- Developed a set of Python scripts that provide developers access to CMU course schedules, descriptions, and student evaluations.

2013 CMUEats, HackCMU

- Wrote the backend for a web application that tracks the hours of CMU dining locations using Python, Django, and MongoDB – later ported to Node.js.
- A year later, the app maintained more than 400 daily hits from students.

other experience

since 2014 Scottylabs Pittsburgh, PA

- Helped to organize and operate Tartanhacks, a hackathon of 350 students from the Pittsburgh area.

2013 Eagle Scout, Boy Scouts of America Amherst, NH

Brainstormed, planned, and executed a service project that supplies used eyeglasses to developing countries. Over the course of the project, I raised more than \$650 and managed 38 volunteers.
